Proffecional Experience

Frontend developeratSchibsted, Aarhus

May 2022 — Present

- React, Typescript, SSR, Microservices, TeamCity & Octopus CI/CD, OKR's...

- Managed, planned, and Lead the process of 2 of our largest projects this year
- Solved some major disregarded technical issues, which the team has dealt with for years.
- My work has a direct revenue impact, so having a high architectural focus, and communicating with different stakeholders and teams is a big part of what i do in the balance squad (advertising).

Programming Teacher, Randers

August 2019 — June 2022

- Physical teaching in C# at Coding pirates (2019-2022)
- Remote private lessons in various software development topics at Superprof (2022)

CEO & Lead DeveloperatZoly I/S, Randers

September 2020 — March 2022

- JS/HTML/CSS, React Native, TypseScript, Wordpress, C#, PHP, MySQL/SQL, Firebase...

- Developed the whole platform from a WordPress base, an app as well As an intelligent inventory system streamlining the entire operation.
- Led the operation and the development with our team of 7, where we went on to gather more than a thousand users and excellent collaborations with some large companies such as DAO, Folkekirkens Nødhjælp, Dania, and Randers municipality.

Junior Frontend DeveloperatWasteHero A/S, Aarhus

June 2021 — October 2021

- React js, TypeScript, GraphQL, Redux, Storybook, React Native, Sass, Formik, Mapbox...

- Planned, led, and develop an internal CMS system used across the entire marketing team

- Worked with the marketing team and the design team to refactor the website using a custom integration I developed, to help gain their largest client.
- Converted the platform's design language to Ant Design.

Lead DeveloperatDirty Sandwich Productions, Remote

November 2019 — September 2020

- Led the development of Setup Simulator with a fanbase of 400 active discord users.
- Developed the fundamental algorithms and base of the game, an entire demo game, the commercial website, and the IndieGoGo campaign. (C#, JS/HTML/CSS)

Lead DeveloperatK Productions, Remote
